

Meritor Part

Meritor Parts - Meritor is a premier international supplier which is proudly founded on a 100 year tradition of quality and service. They focus on several integrated systems, modules and parts to original machine makers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor encourages collaboration and innovation amongst a team of knowledgeable experts.

Meritor strongly believes in just employing future focused employees. These top-caliber people could rapidly get used to to changing environments and freely exhibit the level of commitment and performance considered necessary to be able to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides all of their staff various opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, braking and suspension systems intended for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the requirements of their worldwide engineering staff.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located all over the globe in 19 countries and in 5 different continents.

The supplier development network is particularly located to support new business development. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each part of the business. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business methods and apply lean techniques.
