

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment can automatically trigger to both dump and release when the bumper release touches the side of a dumpster. After dumping is completed, the hopper could go back to original upright and locked position. This piece of equipment is even offered with a cable which enables operation from the seat of the lift truck so as to have the alternative of manually unloading the hopper. There is a locking chain provided to be able to secure the hopper to the tine truck. This product is made with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish so as to maintain durability.
