

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those operating in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique models of lift trucks, with components covering more than 120,000 specific parts for all of its automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really impressive international support network. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark has a uncompromising mission to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Clark has selected the particularly economical and advantageous system of "Lean Manufacturing" for its assembly plants and application of resources. This structure was established to acknowledge the most successful approaches of manufacturing plant stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The new value engineering program combines progressive product development and delivers improved client support and service within the industry.
