

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating since 1974, becoming the largest independent spreader producer all-around the world. They are a devoted manufacturer of spreaders utilized for lots of different applications like for instance the trailers, handling of containers and swap bodies.

Engineering is done in house by means of making use of all of the newest CAD systems and FEM tools. The ELME business now has over one hundred twenty five employees. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry all-around the globe.

The ELME product collection offers spreaders meant for several container and trailer handling operations. A few of their inventory consist of: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers plus a huge variety of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they made over one thousand one hundred fifty spreaders by means of making use of top quality elements so as to ensure reliability and excellent standards while offering competitive prices. Major characteristics of ELME comprise design simplicity, market response and innovative modular spreader concept.
